DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 3/16/07 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 41, 42, 46, and 47 are rejected under 35 U.S.C. 102(b) as being anticipated by Nugent, Jr. et al. (US Patent 5,489,455). Nugent, Jr. et al. discloses blending a polyepoxide (for barrier) with a polyamine, which is then applied to a substrate (column 3, lines 7-11) which may be polyester, and a container is then formed therefrom (column 5, lines 8-10). Nugent, Jr. et al. further discloses that the amine nitrogen in greater levels in the barrier material contributes to adhesion of the barrier material to other polymeric materials (column 13, lines 7-10).

Allowable Subject Matter

4. Claims 25-32 and 57-61 are allowed.
5. Claims 43-45 and 48 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. The following is a statement of reasons for the indication of allowable subject matter: applicants' remarks filed 3/16/07 are persuasive as to the non-applicability of the Veritas references.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nugent, Jr. et al. (5,573,819).
